I am writing to Request a Waiver of the status of my 471 application number 776892 (SPRINT) from Certified - Out of Window. I filed 3 forms for my district on Feb 22, 2011. These FRN numbers are 776892 (SPRINT), 777911 (Windstream), and 777888 (Showme). I used the ecert tool to certify each of these forms. All of which seemed to certify, though when I did so on form 776892 (SPRINT), the Online Application returned an error and did not return an ecert number. I retried the electronic certification and the Online Application claimed the form had already be certified. I called USAC on that day to verify the file had been certified and was confirmed that it had been.

Several weeks later, I received a letter that claimed we had a possibility of an uncertified form. I called once more and was assured it was a blanket form letter and that all my 471s were certified In Window. Until late, I was clear on the subject. On July 5, 2011 I received notice from a vendor that there was trouble with the FRN. I checked the status of the 471 and noticed it had not been certified, or not completely, and has not progressed to the review process for funding decision.

I know that some portion of the certification process completed as it allowed me to file several item 21 attachments, which would not be possible had the certification process not been at least partly completed.

I am making the claim that an unavoidable technical clerical error has prevented my form from being processed as Certified In Window and that our school district should not be removed from consideration for funding for this request.

I have attached the requested documents, as per the USAC website.

Thank you for your time in this matter.
